1. Product description

Specially developed for the treatment of icterus, Arthyl 6 effectively limits tissue greening in cases of **jaundice**.

It is the arterial fluid with the **lowest formaldehyde levels** on the French market, with a concentration of 6%. This formulation significantly reduces the exposure to formaldehyde vapors, in compliance with the Occupational Exposure Limits for professionals.

- Excellent tissue saturation
- Prevention of skin verdigris in case of jaundice
- Reduced exposure to toxic vapors

Standard adult body dose

For 1L of water : 0,5% to 1% of formol or 80 to 150 ml per liter.
